## 1.0. SAP OVERVIEW

1.1. General discussion about SAP and its importance

1.1. General discussion about SAP and its importance

 [futurepathhub@gmail.com](mailto:futurepathhub@gmail.com)

 INDIA - +91 8125423346

## 1.2. Organization structure

- Company
- Company code
- Plant
- Maintenance plant
- Planning plant

## 1.3. SAP landscape

- Sandbox
- Development
- Quality
- Production

## 1.4. SAP Architecture

- Database
- Application
- Presentation

## 2.0. Overview of PM

- Overview of PM in Domain industries
- Role of PM in supply chain management

## 3. MASTERDATA OF PM.

- Over view
- Creation of Functional location
- Creation of Maintenance work center
- Creation of Equipment
- Creation of Task list.
- Creation material
- Creation of Equipment BOM
- Link of material Bom to Equipment
- Structural Display
- Creation of serial number
- Creation of measuring points
- Creation of maintenance plans
- Creation cycle set
- Creation of Strategy

## 4. Creation of General notification

- Processing of notification
- Close of notification

## 5. Creation of Break down Notification

- Processing of notification
- Close of notification

## 6. Creation of maintenance order Integration with MM & FICO

- Maintain settlement rule
- Release of Order
- Confirmation of Order
- Goods issue
- Technical completion
- Variance calculation
- Settlement of ORDER
- Completion of order

## 7. Planning Scenarios

- Creation of Single cycle plan, assign to task list
- Creation of maintenance Strategy and assign it to task list plan
- Multiple counter plans

## 8. Maintenance Processing Execution of all the above individual plans

- Scheduling of the plans
- Notification Generation
- Process notification
- Close of the notification

## 9. Order creation from Notification

- Release of order
- Confirmation of order
- Technical completion
- Variance calculation
- Settlement of ORDER
- Completion of order
- Completion of notification

## **10. Issue of Non stock material to the maintenance order.**

- Creation of material
- Assign in operation
- Carry out MIGO against PO generated through purchase requisition
- Order completion
- Cost analysis

## **11. Issue of stock material to the maintenance order with or without serial number.**

- Creation of material with or without serial number.
- Assign in operation
- Requirements in Md04
- Run MRP and procure this stock component
- Carry out MIGO against PO generated through purchase requisition
- Cost analysis

## 12. External operation OR service delivery in the maintenance order.

- Creation of maintenance order
- Select operation as external
- Maintain service against Po  
Enter the service entry sheet w.r.t PO
- Order completion
- Cost analysis

## 13. Refurbishment of Maintenance order

- Creation of maintenance order W.r.t Material and Order type Pm04
- Maintain other operations
- Assign other Components other than refurbishment component
- Release and save order
- Completion confirmation Goods movement
- Goods receipt of Refurbishment material
- Confirmations of each operation with Final confirmation
- Order Completion
- Cost analysis

## 14. Calibration order and PM integration with Quality management

- Creation of MIC`s
- Assignment of inspection points
- Assignment of MIC`s
- Creation of calibration order
- Generation of inspection lot
- Results recording
- Usage decision
- Completion of Order

## 15. Process of assigning activities to the D in Main equipment notification

- Creation of tasks
- Creation of activities
- Creation of objects
- reaction coding
- Creation of catalogue profile
- Maintain in Equipment
- Carry out task to the object parts
- Closing of individual and main notification

## 16. Factory calendar creation

- Creation of public holidays
- Creation holiday calendar
- Creation of Factory calendar
- Assignment of Factory calendar in Plant

## 17. Information system

- Reports
- Cost analysis
- Cogi errors

## 18. Configuration

- Basic steps
- Maintenance of planning plant
- Assignment of planning plant to maintenance plant
- Overall steps to be configured with respect To PDF

## 19. SAP Project Implementation

- Overview
- ASAP Methodology

## 20. Support process for SAP in Real time

- Priority of tickets
- Acknowledge
- Solution
